PROFILE

Full Stack MERN Developer | UI/UX-Focused :

A skilled Full Stack MERN Developer focused on designing and developing modern, end-to-end web applications. Passionate about enhancing user experience through dynamic and responsive interfaces, with strong expertise in building scalable applications, seamless frontend-backend integration, and high-performance, user-centered solutions.

EDUCATION

2021 – 2025
Arish, Egypt

**Bachelor's Computer Science and Information
Technology, Sinai University**
Graduated in Software Engineering

SKILLS

Web Development

HTML, CSS, Bootstrap, JavaScript

Node.JS

Express, mongoDB

.NET Core

ASP.NET Core , C# , MVC,
EntityFramework

Front-End Frameworks

Angular , React

Version Control

Git, GitHub

Other Tools

Visual Studio, Postman

Database

SQL Server

Problem-Solving

C++, Python, JavaScript

Interpersonal

Teamwork, Communication,
Presentation, Creativity, Critical
Thinking

PROFESSIONAL TRAINING

Jan 2026 – Jun 2026

Arish, Egypt

Intensive Training Program – Information

Technology Institute (ITI), Full Stack Development

MERN Stack & Generative AI (Ongoing) 

Digital Egypt Pioneers Initiative (DEPI)

Apr 2024 – Oct 2024

Zagazig, Egypt

React Web Developer & Business English

Nov 2025 – Jun 2026

Zagazig, Egypt

Microsoft Machine Learning (Ongoing)

COURSES

Jan 2026 – Jan 2026 Online	HTML&CSS , Mahara-Tech (ITI) ↗
Jan 2026 – Jan 2026 Online	Oriented Programming (OOP) using C++ , Mahara-Tech (ITI)
Jan 2026 – Jan 2026 Online	Javascript , Mahara-Tech (ITI)
Jan 2026 – Jan 2026 Online	Modern JavaScript: ES6 and beyond , Mahara-Tech (ITI)
Feb 2026 – Feb 2026 Online	React js* , Mahara-Tech (ITI)
Dec 2024 – Dec 2024	Getting started as a freelancer (Upwork) , Mahara-Tech (ITI)

PROJECTS

Sep 2024 – Oct 2024	Sakanly Website Saknly - Housing Finder Platform An integrated web application designed to help users easily search for and filter suitable housing options. The frontend is developed using React , JavaScript , HTML , CSS , and Bootstrap , while the backend is powered by Node.js for data processing and API integration. The project also utilizes React Router for seamless navigation, demonstrating my ability to build full-stack, practical web solutions.
---------------------	--

Dec 2024 – Dec 2024

Personal Portfolio Website

A personal portfolio website developed to showcase my skills, projects, and experience. The site is built using **HTML**, **CSS**, and **Bootstrap** for responsive design and layout. The frontend is powered by **React.js** for dynamic content rendering, while the backend uses **Node.js** for server-side functionalities. The project also incorporates **JavaScript** to enhance interactivity and ensure a smooth user experience. This portfolio highlights my abilities in full-stack web development and UI/UX design.

Nov 2024 – Dec 2024

Hospital Management System Project

A web application designed to manage hospital operations such as patient records, appointments, doctors, and treatments. The project is developed using **ASP.NET Core**, **C#**, and **MVC** for backend functionality, ensuring efficient data handling and performance. **Entity Framework** is used for flexible and effective database management. The frontend is designed using **HTML**, **CSS**, and **Bootstrap** to create a responsive and visually appealing layout, with **JavaScript** added for enhanced interactivity. This project demonstrates my ability to build integrated and user-friendly web applications in the healthcare domain.

CERTIFICATES

React Web Developer
